

Your project, on paper.

A simple sketch helps us understand your layout. Include approximate dimensions, fixtures and the edges you would like finished.

CUSTOMER NAME

CITY / PROJECT AREA

PROJECT / ROOM

MATERIAL IDEAS / COLOUR

UNITS

☐ in

☐ ft

☐ mm

☐ cm

USE THE SAME UNITS THROUGHOUT

LABEL EACH SEPARATE SURFACE

A main counter

B island / vanity

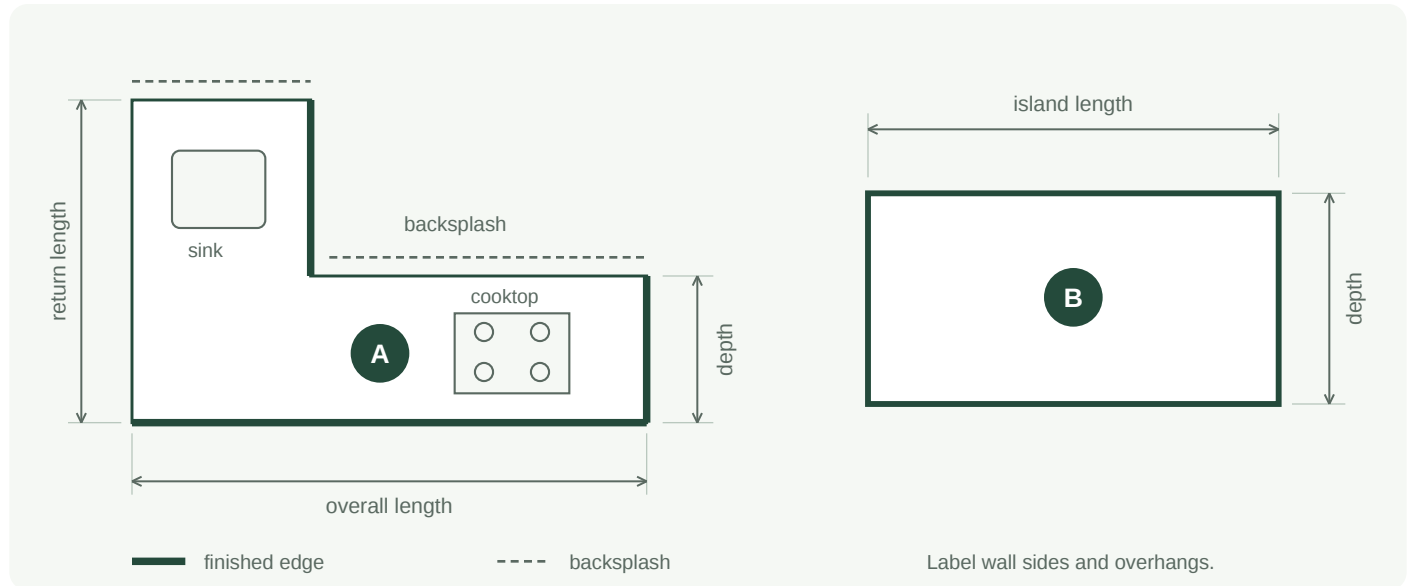

C other

Approximate measurements only. A professional site measure is arranged before fabrication. This worksheet is a planning aid, not a cutting template.

What to mark on your sketch.

Example layout only - not to scale. Use A, B and C for separate surfaces, and write your own dimensions and units on page 1.

ADD THESE DETAILS

- ☐ Overall lengths and counter depths
Measure each run; show any island or separate vanity.
- ☐ Edges, wall sides and overhangs
Mark which edges are exposed and need a finish.
- ☐ Sinks, cooktops and backsplash
Show position and approximate size; add backsplash height.

PHOTOS & FIXTURE CHECKLIST

- ☐ Wide photos of the room and existing counters
- ☐ Cabinet plan or a clear photo of your sketch
- ☐ Sink, cooktop and faucet models / specifications
- ☐ Access notes, stairs and old-counter removal needs

Keep the worksheet for your project discussion. Have sinks, cooktops and faucets on site for the site measure. Call 604 985 0213 to discuss your next step.
